The University of Oregon does not have a formal department of Canadian studies. However, the Canadian studies committee is active within the Oregon Consortium for International and Area Studies at the University of Oregon.

The Canadian studies committee seeks to integrate existing instructional and research activities on Canada and Canadian–United States relations and to stimulate research and course work. Through the auspices of the Canadian Publishing Centre, University of Oregon Libraries is a selected repository for Canadian federal documents.

Grant programs—available through the Academic Relations Division of the Canadian Embassy to support new course development, faculty and doctoral research, conferences, and outreach programs—have provided funds for a number of university faculty members and graduate students. Canadian studies courses enhance American students' understanding of Canada's economy, politics, culture, and social system as well as the strong ties that exist between the United States and Canada. The following courses have significant Canadian content:
