

# Research Centers and Institutes

---

The university's interdisciplinary centers and institutes provide opportunities for graduate training and research. Members hold faculty positions in related academic departments. Students who want to work in one of the institutes as part of thesis or dissertation research must satisfy the graduate degree requirements of the related department through which they earn their degree.

Students who want to work in any of these fields may obtain information about the programs and financial aid from institute and center directors as well as online (<http://research.uoregon.edu/content/uo-research-centers-and-institutes>).

## Center for Cybersecurity and Privacy

**Jun Li, Director**

541-346-4424

[ccsp.uoregon.edu](http://ccsp.uoregon.edu)

The Center for Cybersecurity and Privacy conducts a variety of research projects and educational efforts focusing on the security of computer networks and systems. The center brings together faculty members working in multiple departments and schools, including the Department of Computer and Information Science, the Department of Philosophy, the Charles H. Lundquist College of Business, the School of Law, and Information Services, among others.

## Center for High Energy Physics

**James Brau, Director**

541-346-4898

[uoregon.edu/~chep](http://uoregon.edu/~chep)

The Center for High Energy Physics enhances the physics research activities at Oregon by sponsoring seminars on topics in high-energy physics, hosting visiting scientists, supporting graduate student research, aiding interaction between experimental activities and theoretical investigations of Oregon scientists, and fostering communication of research to the broader community.

## Center for the Study of Women in Society

**Michelle McKinley, Director**

541-346-5015

[csws.uoregon.edu](http://csws.uoregon.edu)

This multidisciplinary research center generates, supports, and disseminates research on gender and all aspects of women's lives. A member of the National Council for Research on Women, the center is one of 95 women's research and policy centers in the United States and among 300 such centers in more than 80 countries.

## Center on Brain Injury Research and Training

**Ann Glang, Director**

541-346-0593

[cbirt.org](http://cbirt.org) (<http://csws.uoregon.edu>)

The center conducts research and training to improve the lives of children and adults with traumatic brain injury, and research focuses on developing interventions to improve issues related to their education, employability, and quality of life. Training activities promote the use of best practices among educators and other professionals who serve individuals with traumatic brain injury.

## Center on Teaching and Learning

**Hank Fien, Director**

541-346-3562

[ctl.uoregon.edu](http://ctl.uoregon.edu)

The center is a community of scholars who conduct and disseminate research that focuses on the solutions to serious but practical problems in school systems. It seeks to advance the understanding and use of the most rigorous scientific evidence and research-based practices to prevent the academic difficulties that many school-aged children experience. The primary focus of research is the role of curriculum, instruction, and assessment as individual elements that affect student advancement in school systems.

## Committee on the Advancement of Women Chemists

**Geri Richmond, Director**

541-346-0116

[coach.uoregon.edu](http://coach.uoregon.edu)

The committee is a grassroots organization working to increase the number and career success of women scientists and engineers. In addition to providing avenues for networking and mentoring of scientists and engineers at all levels, it works closely in an advisory capacity with many institutions, government organizations, and departments to create a professional workplace that provides an equal opportunity for discovery.

## Environmental Science Institute

**Dan Gavin, Director**

541-346-4532

[esi.uoregon.edu](http://esi.uoregon.edu)

The institute was founded on the recognition that solving complex environmental problems requires the knowledge and expertise from multiple disciplines. Its mission is to promote interdisciplinary research and graduate education in the environmental sciences. Members primarily come from the Departments of Anthropology, Biology, Earth Sciences, and Geography. Research of the faculty and graduate students spans the gamut from the geophysical to the organismal, from scales microbial to global, and from periods geologic to contemporary.

## Institute for a Sustainable Environment

**Cassandra Moseley, Director**

541-346-0675

[sustainable.uoregon.edu](http://sustainable.uoregon.edu)

The institute performs interdisciplinary research at the nexus of ecological, economic, and social sustainability, resolving complex problems and enabling communities to sustain economies and environmental systems through investigation and analysis of natural resource management, land use, climate change, rural development, transportation, renewable energy, natural hazards, and environmental education.

## Institute of Cognitive and Decision Sciences

**Holly Arrow, Director**

541-346-4941

icds (<http://icds.uoregon.edu>).uoregon.edu

The Institute of Cognitive and Decision Sciences is dedicated to exploring the workings of the mind and brain and how they affect human behavior and social interaction. Its goals are to advance the empirical study and theoretical understanding of cognition, culture, and communication from an interdisciplinary perspective.

## Institute of Ecology and Evolution

**Scott Bridgham, Director**

541-346-4532

ie2.uoregon.edu

The Institute of Ecology and Evolution, established in 2002 as the Center for Ecology and Evolutionary Biology, promotes and facilitates research and graduate education in ecology and evolutionary biology. The institute encourages scientific interactions among its members and between members and the wider academic community.

## Institute of Molecular Biology

**Ken Prehoda, Director**

541-346-7992

molbio.uoregon.edu

The University of Oregon offers a wide variety of research and training opportunities in contemporary molecular, structural, cellular, and developmental biology. The institute fosters research and training in contemporary biology at the molecular level by bringing scientists from biology, chemistry, and physics into a common intellectual and physical space.

## Institute of Neuroscience

**Terry Takahashi, Director**

541-346-4556

[www.neuro.uoregon.edu](http://www.neuro.uoregon.edu)

The Institute of Neuroscience is an interdisciplinary research group of scientists, with faculty members and students drawn from the Departments of Biology, Human Physiology, and Psychology. Its laboratories offer graduate and postdoctoral training in the neurosciences with projects that address the development of the nervous system and human cognitive processes.

## Institute of Theoretical Science

**Dietrich Belitz, Director**

541-346-5204

[uoregon.edu/~its](http://uoregon.edu/~its)

The Institute of Theoretical Science is a center for research in several interrelated disciplines that encompass mathematics, theoretical chemistry, and theoretical physics. Research interests of the institute's members include particle physics, astrophysics and cosmology, gravitational physics, condensed matter physics and statistical mechanics, group representation theory, geometric analysis, atomic

physics, nonlinear dynamics, optical physics, biophysics, and the foundations of quantum mechanics.

## Materials Science Institute

**Richard P. Taylor, Director**

541-346-6442

materials.science.uoregon.edu

The purpose of the Materials Science Institute is to study the structure and properties of materials, to educate in the sciences of materials, and to serve Oregon as a resource in these sciences. Since 1985, the institute has more than tripled the size of its research program, developed four new graduate programs in materials, and contributed to the state's prosperity through collaboration with more than 25 Oregon companies.

## Neuroinformatics Center

**Allen D. Malony, Director**

541-346-0534

[www.nic.uoregon.edu](http://www.nic.uoregon.edu)

The center researches the application of computer science and numerical computation to problems with brain modeling and imaging. High-performance computing plays a significant role in the research at the center.

## Northwest Indian Language Institute

**Janne Underriner, Director**

541-346-0730

[www.uoregon.edu/~nwili](http://www.uoregon.edu/~nwili)

The institute provides Native American language teachers, community members, and UO students with training in the teaching of native languages and linguistics. With tribal partners, it supports and strengthens language preservation and restoration efforts by establishing collaborative projects that meet the specific needs and desires of each language community.

## Oregon Center for Optical, Molecular, and Quantum Science

**Jeff Cina, Director**

541-346-4528

oco.uoregon.edu

The center encompasses research in basic and applied aspects of optics in physics and physical chemistry. Members of the center are instructors in physics and chemistry; associate members are from these departments as well as from institutions outside the university; students—undergraduate, master's, and doctoral—are involved in all aspects of research at the center.

## Oregon Humanities Center

**Paul Peppis, Director**

541-346-3934

ohc.uoregon.edu

The center is the sole interdisciplinary umbrella organization for the humanities at the University of Oregon. It seeks to promote and strengthen the humanities both on campus and in the broader community

by supporting faculty research and teaching, fostering collaboration among the disciplines, and sponsoring a wide variety of public programs.

## **Oregon Institute of Marine Biology**

**Craig M. Young, Director**

541-888-2581

[uoregon.edu/~oimb](http://uoregon.edu/~oimb)

Founded in 1930, the Oregon Institute of Marine Biology is the third-oldest marine laboratory on the Pacific Coast. The 130-acre campus, located about two hours from Eugene, maintains housing and research facilities for visiting investigators and students from other institutions. Members of the resident faculty are from the UO Department of Biology, conducting research on the development, ecology, evolution, and physiology of marine organisms worldwide from the intertidal zone to the deep sea.

## **Prevention Science Institute**

**Elizabeth A. Stormshak, Director**

541-346-9396

[psi.uoregon.edu](http://psi.uoregon.edu)

The Prevention Science Institute is a multidisciplinary institute focused on understanding human development, preventing behavioral health problems, and implementing effective interventions in community settings, engaging in research on social and emotional processes among children, adolescents, and families to improve their lives and well-being throughout their lifespan. The institute also provides vital professional and research training for graduate and undergraduate students.
