The university’s interdisciplinary centers and institutes provide opportunities for graduate training and research. Members hold faculty positions in related academic departments. Students who want to work in one of the institutes as part of thesis or dissertation research must satisfy the graduate degree requirements of the related department through which they earn their degree.

Students who want to work in any of these fields may obtain information about the programs and financial aid from institute and center directors as well as online(http://research.uoregon.edu/content/uo-research-centers-and-institutes).

**Center for Cybersecurity and Privacy**

Jun Li, Director  
541-346-4424  
ccsp.uoregon.edu

The Center for Cybersecurity and Privacy conducts a variety of research projects and educational efforts focusing on the security of computer networks and systems. The center brings together faculty members working in multiple departments and schools, including the Department of Computer and Information Science, the Department of Philosophy, the Charles H. Lundquist College of Business, the School of Law, and Information Services, among others.

**Center for High-Energy Physics**

Eric Torrence, Director  
541-346-4898  
uoregon.edu/~chep

The Center for High-Energy Physics enhances the physics research activities at Oregon by sponsoring seminars on topics in high-energy physics, hosting visiting scientists, supporting graduate student research, aiding interaction between experimental activities and theoretical investigations of Oregon scientists, and fostering communication of research to the broader community.

**Center for the Study of Women in Society**

Michelle McKinley, Director  
541-346-5015  
csws.uoregon.edu

This multidisciplinary research center generates, supports, and disseminates research on gender and all aspects of women’s lives. A member of the National Council for Research on Women, the center is one of 95 women’s research and policy centers in the United States and among 300 such centers in more than 80 countries.

**Committee on the Advancement of Women Chemists**

Geri Richmond, Director  
coach.uoregon.edu

The committee is a grassroots organization working to increase the number and career success of women scientists and engineers. In addition to providing avenues for networking and mentoring of scientists and engineers at all levels, it works closely in an advisory capacity with many institutions, government organizations, and departments to create a professional workplace that provides an equal opportunity for discovery.

**Institute for a Sustainable Environment**

Heidi Huber-Stearns, Director  
541-346-0675  
sustainable.uoregon.edu

The institute performs interdisciplinary research at the nexus of ecological, economic, and social sustainability, resolving complex problems and enabling communities to sustain economies and environmental systems through investigation and analysis of natural resource management, land use, climate change, rural development, transportation, renewable energy, natural hazards, and environmental education.

**Institute of Ecology and Evolution**

Matt Streisfeld, Director  
541-346-4532  
ie2.uoregon.edu

The Institute of Ecology and Evolution, established in 2002 as the Center for Ecology and Evolutionary Biology, promotes and facilitates research and graduate education in ecology and evolutionary biology. The institute encourages scientific interactions among its members and between members and the wider academic community.

**Institute of Molecular Biology**

Ken Prehoda, Director  
541-346-7992  
molbio.uoregon.edu

The University of Oregon offers a wide variety of research and training opportunities in contemporary molecular, structural, cellular, and developmental biology. The institute fosters research and training in contemporary biology at the molecular level by bringing scientists from biology, chemistry, and physics into a common intellectual and physical space.

**Institute of Neuroscience**

David McCormick, Director  
541-346-4556  
www.neuro.uoregon.edu

The Institute of Neuroscience is an interdisciplinary research group of scientists, with faculty members and students drawn from the Departments of Biology, Human Physiology, and Psychology. Its laboratories offer graduate and postdoctoral training in the neurosciences with projects that address the development of the nervous system and human cognitive processes.

**Institute of Theoretical Science**

Dietrich Belitz, Director  
541-346-5204  
uoregon.edu/~its

The Institute of Theoretical Science is a center for research in several interrelated disciplines that encompass mathematics, theoretical chemistry, and theoretical physics. Research interests of the institute’s
members include particle physics, astrophysics and cosmology, gravitational physics, condensed matter physics and statistical mechanics, group representation theory, geometric analysis, atomic physics, nonlinear dynamics, optical physics, biophysics, and the foundations of quantum mechanics.

Materials Science Institute
Darren Johnson, Director
541-346-6442
materials.science.uoregon.edu

The purpose of the Materials Science Institute is to study the structure and properties of materials, to educate in the sciences of materials, and to serve Oregon as a resource in these sciences. Since 1985, the institute has more than tripled the size of its research program, developed four new graduate programs in materials, and contributed to the state’s prosperity through collaboration with more than 25 Oregon companies.

Oregon Advanced Computing Institute for Science and Society
Allen D. Malony, Director
541-346-0534
www.nic.uoregon.edu

The center researches the application of computer science and numerical computation to problems with brain modeling and imaging. High-performance computing plays a significant role in the research at the center.

Oregon Center for Optical, Molecular, and Quantum Science
Steven van Enk, Director
541-346-4528
oco.uoregon.edu

The center encompasses research in basic and applied aspects of optics in physics and physical chemistry. Members of the center are instructors in physics and chemistry; associate members are from these departments as well as from institutions outside the university; students—undergraduate, master’s, and doctoral—are involved in all aspects of research at the center.

Oregon Humanities Center
Paul Peppis, Director
541-346-3934
ohc.uoregon.edu

The center is the sole interdisciplinary umbrella organization for the humanities at the University of Oregon. It seeks to promote and strengthen the humanities both on campus and in the broader community by supporting faculty research and teaching, fostering collaboration among the disciplines, and sponsoring a wide variety of public programs.

Oregon Institute of Marine Biology
Craig M. Young, Director
541-888-2581
uoregon.edu/~oimb

Founded in 1930, the Oregon Institute of Marine Biology is the third-oldest marine laboratory on the Pacific Coast. The 130-acre campus,
