

# Bachelor of Arts and Science in General Social Science

## Undergraduate Studies

The program has four concentrations or tracks. Each concentration has its own set of core courses and then provides a number of elective courses from various departments. Major requirements for each of the four concentrations may be found on the program website.

### Applied Economics, Business, and Society

This track combines technical training in business with the analytical training of the liberal arts. It draws heavily from courses in the business college and the economics department to offer specific business skills while exploring how business functions in society, on the national level, and in the global context. This concentration is designed specifically for students who plan to work in business or to pursue a master of business administration degree.

### Crime, Law, and Society

This track provides broad exposure to problems that confront society on the causes and consequences of, and policies on, crime, offering preparation for students with an interest in criminology, law practice, law enforcement, or social services.

### Globalization, Environment, and Policy

This track focuses on broad social-political and environmental issues at the regional, national, and global levels, as well as the policy planning required to meet these issues within an interdisciplinary context. The globalization concentration provides training for students planning to work in green industry, government, NGOs, and environmental organizations. In addition, the track prepares students to earn graduate degrees in planning, public management, policy studies, or other applied social sciences with a global emphasis.

### Social Studies Teaching

This track prepares students with the course requirements for admission to the graduate teacher licensure program at the University of Oregon—UO Teach. This concentration does not, in and of itself, lead to a teaching license; rather, it provides a well-defined content so that students are prepared to enroll in a graduate program to become licensed to teach social studies at the middle or high school level.

General social science majors are encouraged to consult with their advisors at least once a year to ensure their remaining course work is structured to meet all the requirements for the major. Students should notify the General Social Science Program office of their intention to graduate at least one term before the proposed graduation date.

**Recommended Courses**<sup>3</sup>

- <sup>1</sup> We recommend that students select one course from each of the two categories (European and world history).
- <sup>2</sup> The remaining two courses must be taken exclusively in one area of concentration. 400-level courses from several areas of specialization are not listed below due to the significant number of prerequisites. However, you may take 400-level courses as substitutes for 300-level courses with approval from a General Social Science adviser
- <sup>3</sup> It is recommended (but not required) that students take one to three courses in Education Studies in preparation for teacher training. Recommended courses include EDST 111, and 420. Additional courses might include EDST 342, 343, 399, 451, 452, 453, 454, 455, 456, 457.

## Requirements

Students must complete 68 credits with a minimum of 40 upper division credits within the major.

Courses subject to change as UOTeach/Oregon/National Content standards change.

Courses cannot overlap between sections (i.e., section 1 & 2 or section 2 & 6, etc.).

Courses must be completed with a grade of C- or better. A maximum of one course with a grade of 'P' or 'P\*' may be used.

**Double Dipping Policy**

GSS will accept a maximum of 3 courses that overlap ("double-dip") with another major, or 1 course that overlaps with a minor. Please note that degree guide may not reflect the double-dipping policy and it will be the responsibility of the student to ensure they are meeting the requirements. For additional information, meet with

an advisor.
