

# Accounting

---

## Angela K. Davis, Director

Undergraduate Advising Office  
203 Peterson Hall

Accounting students are highly recruited by a variety of organizations—taking positions in public accounting firms, industry, and government. Accountants deal with issues ranging from the design of information systems to the formulation of acquisition strategies. Given the growing internationalization of business, career paths can even lead to exciting opportunities abroad. Accounting graduates of the University of Oregon include Phil Knight, Nike cofounder and chairman, and Charles H. Lundquist, the namesake of the UO business college.

The challenging curriculum emphasizes the development of skills in problem-solving, analytical reasoning, and written and oral communication. Students participate in various real-world projects and obtain considerable computer experience. The relatively small size of the program allows meaningful student-faculty interaction. The School of Accounting is one of only 120 accounting programs accredited by AACSB International.
