Business Administration

The Lundquist College of Business offers BS and BA degrees in business administration. All students who are successfully admitted to the major will complete a set of ten upper-division core courses and seven additional electives. Business administration majors can choose to pursue a general business degree or select to concentrate in one of five areas: entrepreneurship, finance, marketing, operations and business analytics, and sports business.

Business Premajor Courses

Premajor core business courses must be taken at the University of Oregon.

In addition, international students are required to take Academic English for International Students (AEIS) courses or produce English language proficiency test scores (575 on the TOEFL paper-based test, 89 on the TOEFL internet-based test, or 7.0 in the IELTS).

Courses should be interrelated and coherent set consistent with student's career goals. A nonbusiness minor meets this requirement, as does two years of language study. Nonbusiness breadth plans must be approved and on file in the Advising Office; assistance in planning individualized programs is available in the advising office.

Courses focus on international, cultural, historical, political, economic, or social issues of a geographic region and the culture of one country or region other than the student's native country. Language courses beyond the first year satisfy this requirement. Global context plans must be approved by an advisor in the Advising Office.
