

Marketing

T. Bettina Cornwell, Department Head

Undergraduate Advising Office
203 Peterson Hall

The Department of Marketing provides undergraduates with concentration areas in marketing and sports business.

The marketing concentration provides preparation for careers in marketing management. Examples of such careers include advertising, social media, professional selling, distribution, and marketing research. Special attention is given to the contributions of the social sciences and of quantitative methods to the study of marketing. The program includes courses on marketing research and strategy, marketing communications, and consumer behavior.

The sports business concentration addresses the use of sports to market goods and services. The successful sports marketer must understand business principles and have a strong sense of how value is created through marketing programs tied to athletes, teams, leagues, and organizations. The concentration presents a rigorous academic curriculum in such areas as sponsorship, sports law, and communications while paying close attention to industry practices and trends. Students who choose this concentration prepare for careers in team marketing, sponsor relations, event marketing, and league operations.
