

Entrepreneurship Minor

The minor in entrepreneurship is intended for nonbusiness students who want to learn about innovation processes and the managerial and leadership skills required to create a new venture. The entrepreneurship minor gives students the opportunity to envision, develop, test, and build a for-profit or nonprofit venture working within an interdisciplinary framework of exploration and self-discovery.

The minor in entrepreneurship is open to students from all majors except pre-business, business administration, or accounting. For general social sciences majors with a concentration in applied economics, business, and society, students must adhere to the GSS double-dipping policy. See the GSS website (<https://gss.uoregon.edu/faqs/>) for more information. Completing the minor requires 24 credits of course work, which can be completed in one academic year.

It is possible to earn more than one minor within the Lundquist College of Business. However, for students earning more than one business-related minor, no more than three courses can be used to satisfy multiple business minors.

Students may declare a minor in entrepreneurship online at the college's website (<https://business.uoregon.edu/ug/minors/entrepreneurship/>), where a checklist of requirements can be found. Advising assistance is available in the Office of Undergraduate Advising.

Minor in Entrepreneurship

Code	Title	Credits
Required Courses:		16
BA 101Z	Introduction to Business	
MGMT 335	Launching New Ventures	
MKTG 445	Entrepreneurial Marketing
