This two-year program trains students as professional family therapists in preparation for state licensure. This intensive training combines a strong theoretical base in systemic therapy with applied clinical experience. Students learn how to provide culturally sensitive and responsive therapeutic services and collaborate with providers from other disciplines across a variety of health-care settings.

The clinical practicum includes 500 client contact hours with 200 hours in relational systems (50 percent with couples or families) and 80 hours of individual and group supervision. Supervision at the Center for Healthy Relationships involves live observation, participation in reflecting teams, and feedback on audiovisual recordings of therapy sessions. In addition, students see clients at community agencies, clinics, and therapist practices. The Couples and Family Therapy Program is one of two programs in Oregon to be accredited by the Commission on Accreditation for Marriage and Family Therapy Education and approved by the Oregon Board of Licensed Professional Counselors and Therapists. Students of the program also have the option to complete a research project and formal thesis as well as the Spanish language specialization in addition to the standard program of courses.

Application and Admission
Detailed admission policies and procedures for the couples and family therapy specialization are available on the couples and family therapy website. Students are admitted fall term only. Completed applications must be received by the deadline published on the website for the following fall term. Only completed applications are reviewed for admission. Applicants are evaluated on the following:

1. Quality of work
2. Related work, background, or experience
3. Résumé with statement of purpose
4. Diversity essay response
5. Three letters of recommendation
6. An interview

Notices about disposition of applications are mailed by April 15.

Program Learning Outcomes
Upon successful completion of this program, students will be able to:

- Theoretical Foundations: Students will demonstrate an understanding of the core theoretical assertions of couples and family therapy and will critically assess their own systems-oriented theory of change.
- Social Context and Diversity: Students will demonstrate attitudes that value human diversity, will practice culturally sensitive analysis and critical self-awareness when counseling diverse populations, and will demonstrate cultural competence in all professional activities.
- Clinical Application: Students will demonstrate an understanding of the unique systemically oriented assessment and intervention competencies, will apply them effectively in practice, and will critically evaluate their own practice.

Applicants must pass a criminal background check before they may enroll.
